

UST Compliance 101

Survival Tips for Tank Owners

Congratulations ! Your site is being inspected- Now What?

-  Do you know what the inspector will be looking for?
-  Do you have the proper equipment in place?
-  Do you have the proper documentation and records?
-  Can you demonstrate proper use of equipment if asked to do so?
-  Do you know how to make the job easier for you and the inspector?

Getting Prepared

Do a self-audit of your location

- Do you know what you have and how it works?
- Is all equipment in working order?
- How does the site appear?
- Ask “What would an inspector look for?”
- Get help from cyberspace:
